SE

A close-up, high-contrast image of a man's face and upper torso. The man has dark skin and is looking directly at the camera with a serious expression. His face and chest are covered in a network of glowing, white, vein-like lines that resemble a circuit board or a biological system. On his forehead, there is a small, circular, metallic device with a lens or sensor. To the left of the man's head, there is a rectangular, metallic-looking object with a circular opening, possibly a manhole cover or a piece of machinery. The background is dark and textured.

• MICROFILARIA PERIODICITY

THE MICROFILARIA PERIODICITY IS A UNIQUE CHARACTERISTIC OF THE PARASITE WORM OR "FILARIA". MICROFILARIA, THE FILARIA CARNAL, SETTLE ON THE HOUR WHEN VECTOR INSECTS SUCK UP BLOOD TO THEM.

THE

WILL ONLY

IF VECTOR

MICROFILARIA

HOW ARE

HOW IS
IT THAT

IN ANY CASE,

I see.

A rabbit cage

Even if it is unlikely, we might be dealing with the same man

You know, the chain of events in a murder crime isn't always the same...

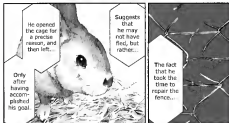

NO. IN LIGHT OF THE SUSPICION THAT THESE INCIDENTS ARE NOT HAPPENING IN LOGICAL ORDER.

It doesn't seem very logical...

Rather, it's the repairs done on the fence that concern me.

YES.

DO YOU
WORK AT
HAKINO?

BY
THE

IN FACT,
NOTHING

NO.

DID YOU

DON'T

WE

It's

YES?

THE THING IS,
MICROFLARA
LARVAE COULD
BE PRESENT IN

ANIMALS WITH-
OUT ACTUALLY
TRIGGERING
THE DISEASE

THE
STRUCTURE
OF THE HUMAN
BRAIN IS VERY
DIFFERENT FROM
THOSE OF
NON-HUMANS,
SO...

IT
COULD
SEEM
NORMAL,
BUT...

And
that's it.

According
to the
information
I could
gather...

Many buildings
in Hiking, that
had animals,
were damaged
in the last few
days...

Locks and
fences were
broken, but
that's it.

There was
damage, but
the animals were
unharméd...

The third
time, was
in a rabbit
cage in the
Hiking
elementary
school.

The second,
a pet shop
called "The
world of an-
imals" in the
Hiking
neighbor-
hood.

The first
time, it was
in a zoo in
the Midori-
Yamacho
neighbor-
hood.

OFFICER WOODGATE

the crimes
in Makino.

Karakawa's
next target
is the indi-
vidual who
committed...

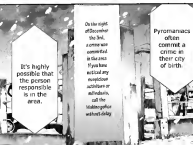

that
happened
near the
city of
Sasahara

He chose
the most
appropriate
unresolved
crime...

SO
THAT
WAS
IT...

WHAT
WAS
IT
YOU
BELIEVE
IT?

It's highly
possible that
the person
responsible
is in the
area.

On the night
of December
the 3rd,
a crime was
committed
in the area.
If you have
noticed any
suspicious
activities or
individuals,
call the
Hakone police
without delay.

Pyromaniacs
often
commit a
crime in
their city
of birth.

THE
MOST
APPRO-
PRIATE?

A mass contagion targeted at all the inhabitants of Malono.

Kurokawa wants to artificially trigger a Hana epidemic...

Yeah...
No need to look up the pyromaniac...

or even to identify him.

TRIGGER AN EPIC
AND?

Once the mosquito season begins, the contamination will spread to the humans ...

All that needs to be done is inject the animals in Malina and wait.

HE'S LOOKING TO COULATE TWO BOMBS

IN OTHER WORDS...

SPX-W000001

.....

Without wearing a protective suit 24/7, you can't protect yourself from them.

If the government does in Helsinki...

He'll end up getting contaminated at some point.

MY GOD...

BUT IN THE SUMMER, IT'S GOING TO BE A CATAS-TROPHE

NOBODY WILL BE ABLE TO STOP IT

It's surely what happened in Taketoyo-Machi that gave him the idea.

Seeing as we're in the middle of winter, the number of victims is limited, naturally...

But
Karakasa
doesn't see
things that
way

If the epidemic
were to break
out, all of the
inhabitants
would be
done for...

In his eyes,
it's always
less risky than
letting a
pyromaniac
run wild...

The films
don't cause
death...

It doesn't
even make
an attempt
at your life.

THAT'S
WHAT HE
MUST BE
THINKING...

Also,
I know.

This guy
is convinced
that he's
acting in
humanity's
best interest.

YOU'LL
HAVE TO
TAKE CARE
OF THINGS
FORCE-
FULLY.

EVEN IF
YOU KNOW
HE'S WRONG,

PERSUADING
HIM TO TAKE
A STEP BACK.
IT WOULD BE
